DRAWING SERVICE

Our in-house drawing service helps bring your bespoke chandelier to life by visualising the style, colour, and scale, giving you a clear sense of the final design before commissioning.

By using industry standard software, our design files can be used by architects and interior designers to integrate our lights into their own design schemes, whilst our in-house visualisations and renders hugely help our customers make informed decisions.

GLASS COLOURS

Diffuse colours are created by sand-blasting the transparent glass to create a diffused effect. These colours are only a guide, exact finish may vary.

Any small imperfections within the glass such as bubbles, swirls, slight variations in shape, colour and size are part of the hand-blown process.

OPTIONS

FLEX

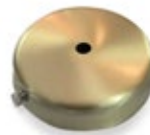

The fabric twisted flex is stocked in ten colours. Round flex and additional colours are also available.

All pendants are supplied with 1m of adjustable flex but can be specified to any length.

NB. American and bathroom lights are supplied with round flex (non-twisted).

Ceramic Colours

These colours are only a guide, due to their hand-made nature. Exact colours and intensities may vary.

Flex Colours

Introducing five new flex colours available exclusively for the Maya Collection.

Ceramic, Glass & Flex samples can be ordered from our sample page on our website.

BATHROOM LIGHTING

Many of our single Pendants, Chandeliers and Wall Lights can now be made to IP Rating for bathrooms, meaning they can be used in wet areas, near sinks and showers (Zones 1 & 2) and are fully compliant with BSEN 60598-1(2015).

Note: Our bathroom lights are not certified for North America.

Each light piece is made to measure using round, fabric covered flex (non twisted) or metal rods and feature an enclosed LED G9 bulb.
