

CURIOUSA

GLASS COLOURS

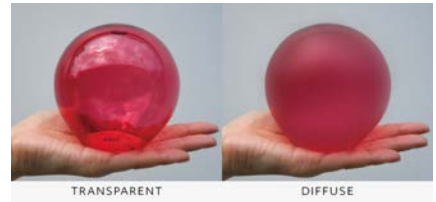

Glass samples can be ordered from our website. Diffuse colours are created by sand-blasting the transparent glass to create a diffused effect. These colours are only a guide. When glass is free hand-blown the colour will naturally vary depending on the shape and thickness of the piece. Any small imperfections within the glass such as bubbles, swirls, slight variations in shape, colour and size are part of the hand-blown process.

Ceramic samples can be ordered from our website. Our ceramic shades are handmade in our workshop using Parian slip* (porcelain). The translucency varies depending on the colour of the pigment within the clay.

Due to their hand crafted nature these colours are only a guide. Exact colours and intensities may vary.

**Apart from Chocolate which is high fired terracotta*
